

## Lease-Only (Inactive) Sector Membership

- Permit lessor enrolls in one of the Sustainable Harvest Sectors. Enrollment is valid for one fishing year.
- Lessor agrees not to participate in the multispecies fishery, or a groundfish sector fishery subject to Annual Catch Entitlement catch deductions, for the enrollment period.
- Lessor agrees to offer for lease the permit's multispecies annual catch entitlement (allocation) to the Sustainable Harvest Sector membership.
- Lessor may or may not offer to lease the permit's groundfish 'A' DAS for lease.
- The Sector offers the catch entitlement (and DAS if applicable) to its standard membership in a competitive bidding environment. The entitlement (and DAS) is leased to the highest bidder.
- Lesser agrees (s)he may set minimum sale prices for allocation or DAS (with no guarantee said minimum will be offered or realized), but that lessor has no control over who or what entity leases the allocation or DAS.
- There is no sector membership fee, nor a fee for leasing allocation or DAS to the sector.
